KITA-NET Bonn

The parents' portal offers you the opportunity to find out about all publicly funded places in day-care centres and in child day care (KTP) in the city area of Bonn. You can register your requirements for a care place online and apply to the selected day-care centres and/or the Netzwerk Kindertagespflege Bonn.

Parents' portal

For an online application, create your own user account in the parents' portal.

The portal offers you the following possibilities:

- Apply to several day-care centres
- Register your requirements in the KTP with the Netzwerk Kindertagespflege Bonn
- Change your applications at any time
- An overview of your registrations
- Information on the current processing status of your registrations
- The binding acceptance of care offer confirmations

With your smartphone, tablet or PC, you have access to your applications, announcements and cancellations anywhere and anytime.

Procedure

The program shows you the available services and you can now start to reserve your child's place in the relevant institutions.

You will be kept informed at all times about your child's status on the waiting list of a care offer via the parents' portal. If you are looking for a **place in the KTP**, it is also **necessary** to get in **touch** with the **Netzwerk Kindertagespflege**.

If a free space is available in the day-care centre, this will be indicated by the confirmation of a day-care centre in the parents' portal. Confirmations for the start of the nursery year (1 August) are not issued before February of the same year.

You must accept any confirmations for a care place within 14 days. Otherwise, the acceptance will be automatically converted into a cancellation.

If you bindingly accept a confirmation, all applications for this child in the other care institutions will be cancelled. Of course, the online procedure does not replace the making of personal acquaintances in the day-care centre and the KTP. The responsible persons will inform you when and how this can take place.
