

For balancing family and career easier, the Family Center offers you different childcare services:

Our institution provides day care for 85 children ranging in age from under 3 year old to pre-school in four groups.

Our opening times are 51 hours a week:

Monday through Friday from 7 a.m. to 5 p.m.

Tuesday until 6 p.m.

Depending on the desired childcare time of 25, 35 or 45 hours, we offer lunch and sleeping accommodation.

In the Family Center "Kita Holzwurm" your children are supervised exclusively by qualified educators.

Welcome
to the
Familienzentrum
„Kita Holzwurm“

Fam^{en}zentrum „Kita Holzwurm“

A place to meet and to communicate for the whole family

The GERMAN RED CROSS Family Center „Kita Holzwurm“ is situated in the traffic-calmed city centre of Rödینگhausen, a town official recognized as climatic health resort.

Our Family Center is firmly established in the social network of the community of Rödینگhausen. We cooperate closely with other social facilities and serve as advisory board for young families. We establish contacts and mediate, also for families whose children do not visit our facility.

Due to our many activities and the favorable location within the community our facility is wellknown and has evolved into a social point of communication.

The large amount of space makes it possible to present a variety of offers, also for non-members.

The GERMAN RED CROSS Family Center „Kita Holzwurm“

is part of a world-wide community of people in the international Red Cross and Red Crescent Movement.

On behalf of humanity we stand up for life, dignity, health, well-being and the rights of all children and those involved in the development process.

Based on the 7 principles

**Humanity – Impartiality – Neutrality
– Independence – Voluntariness –
Unity – Universality**

We realize an educational and care-taking concept adapted to children's needs.

We perform all mandatory formulated legislative tasks, as well as the requirements of the education agreement on a high professional level.

All children in our Family Center are promoted in a holistic and age-appropriate manner. This development process is recorded through an educational documentation and is made clear through an audit, as well as through an intensive exchange of information with the parents.

Our main focus in our educational work

Language support:

The language support is an integrated part of our educational work. For children with migration background, but also for children who are far behind in their language development, we offer special aid in a small group called „Bobby-Treff“.

Prevention of dyslexia (weakness in reading and spelling):

In order to prevent arising reading and spelling weakness (dyslexia) we perform the test procedure „BISC (Bielefelder Screening)“ in conjunction with the „Würzburger training program HLL (Hören, Lauschen, Lernen= listen and learn)“ one year before school enrolment.

Encouragement of future first-graders:

The year before school enrolment we support the children selectively in small groups, in order to strengthen and develop their educational process, focusing on handcraft, theatre, creativity, music & rhythmic, experiments and movement.

For further information please feel free to contact us at our Family Center.
